Description

- **Product:** PE film 90 µ
- **Colour:** Black
- **Width:** 168 cm
- **Length:** 200 m
- **Application:** Protective layer for irrigation mats on planting tables
- **Material:** Polyethylene (PE)
- **Function:** Prevents water loss, protects against damage
- **Advantages:** Durable, waterproof, easy to install

The **PE film 90 µ** serves as the bottom protective layer on greenhouse tables and prevents unwanted water runoff. It protects the irrigation mat above from mechanical damage and supports optimal water retention.

Thanks to its robust and waterproof properties, it is suitable for professional use in nurseries and horticultural businesses. The PE film can be combined effectively with irrigation mats and the Aquaplus anti-algae film.

With a width of **168 cm** and a length of **200 m**, it provides an efficient solution for protecting and covering planting tables.
