Description

- **Application:** Connector for telescopic systems in greenhouse installations
- **Material:** Galvanized steel for high durability and corrosion resistance
- **Compatibility:** Suitable for 27 mm pipes with 1.5 mm wall thickness
- **Special feature:** Extended version allows integration of a spacer roller

The **Extended Adapter Pipe 27 × 1.5 Galvanized** functions as a connecting element between universal joints and steel pipes in telescopic systems. Its extended design enables the use of a spacer roller, such as those found in TGU TransAxle Units. The high-quality galvanization ensures excellent longevity and corrosion protection.
