Description

- **Application:** Manual operation of hand drives in shading and ventilation systems
- **Material:** Robust steel for high stability and durability
- **Function:** Ideal for low-mounted or inline hand drives
- **Length:** 200 mm

The **Hand Crank 200 mm for Manual Drive** is a compact and reliable tool for manually operating hand drives in greenhouse shading and ventilation systems. It is especially suitable for low-mounted or inline installations.

Its solid steel construction ensures long-lasting performance, while the compact design allows for precise and comfortable control of the drive mechanism.
