Description

- **Application:** Controls air inflation in double greenhouse films
- **Voltage:** 12 V low-voltage safety system
- **Activation:** Triggered by contact with inflated double film
- **Features:** Waterproof, insect-resistant, durable plastic housing
- **Function:** Operates independently of timers - responds to actual fill level
- **Compatibility:** Suitable for most commercial inflation systems - optimized for TGU systems

The **Limit switch for Poly Inflation Set** enables precise and reliable control of air inflation in double greenhouse films. It activates upon contact with the inflated film and is built to withstand harsh greenhouse conditions. Ideal for use with TGU and other standard inflation systems.
