Description

- **Application area:** Securing single film to aluminum film clamping profiles
- **Material:** High-quality PVC for long-term use
- **Length:** 2 m
- **Design:** Specifically developed for single film
- **Special feature:** Most robust version for aluminum film clamping profiles

The **PVC clamping strip FN 21** is the most robust version for securing single film to aluminum film clamping profiles. It ensures a firm hold while protecting the materials during installation and removal.

Thanks to its high-quality PVC construction, it offers long service life and excellent durability. With a length of 2 m, this clamping strip is ideal for professional greenhouse construction applications.
