# Description

- **Application:** Guide pulley for tensioned wire ropes in greenhouses
- **Material:** Rugged construction for extended service life
- **Installation:** Not suitable for retrofitting on already tensioned wires
- **Alternative:** TGU Awning Pulley 40 for retrofitting
- **Packaging Unit:** 5 pieces

The **Awning Pulley with Hook** is purpose-built to guide tensioned wire ropes within greenhouse structures. It ensures smooth movement and reliable support.

Please note: this pulley is not suitable for post-installation on pre-tensioned cables. For retrofitting, we recommend the TGU Awning Pulley 40.

With high-quality materials and robust design, this pulley provides the stability and longevity needed for continuous operation in professional greenhouse applications.
