## Description

- **Product:** Aquafloora 120 - 3 layers
- **Structure:** Three-layer
- **Surface weight:** 300 g/m<sup>2</sup>
- **Width:** 160 cm
- **Length:** 50 m
- **Application:** Irrigation systems for cultivation tables
- **Material:** Aquatex Groundcover 100 + Aquafil 120 + PE film
- **Function:** Optimized water retention and even distribution
- **Advantages:** High water absorption, easy cleaning, crease-free surface

**Aquafloora 120** is an innovative solution for irrigating cultivation tables. Its three-layer structure combines high-capillarity AquaFil irrigation fleece with Groundcover and a PE film to ensure optimal water retention and uniform distribution.

The crease-free surface prevents puddle formation, reducing evaporation. In addition, the surface is especially easy to clean—sweeping or wiping is all it takes.

With a water storage capacity of approx. 1 liter/m<sup>2</sup>, Aquafloora 120 - 3 layers ensures efficient water usage and supports healthy plant growth. The combination of high-quality materials makes it a durable and reliable solution for professional growers.
