- **Feature:** Moisture-regulating and reflective

FFS 2/4 alu-green combines elegant aesthetics with high thermal protection. With a slightly stronger shading rate, this version keeps interior temperatures even lower, which is especially beneficial in high-radiation environments.

The green hue blends seamlessly with natural greenhouse surroundings, while the material's composition maintains a breathable and dry atmosphere. Simple S-hook suspension ensures easy and flexible installation.

Note: Pricing is for fabric only - tailoring or customization may incur additional charges.
