- **Features:**

- Affordable solution for reducing direct sunlight
- Multifunctional protection against environmental factors
- Quick to install and cut to size

Shading Fabric 3.00 x 100 m is an extra-wide woven fabric roll ideal for larger applications such as greenhouse roofs, garden fencing, or temporary shading zones. It effectively blocks excess sun, while its breathable structure can also deter leaves, birds, and wind. Its generous width and easy handling make it a solid choice for landscaping, agriculture, or site shielding tasks.
