• **Features:**

- Fast and easy installation
- Versatile use beyond shading systems
- Suitable for thin metal sheets and wire attachments

Inox Cloth Clips are practical stainless steel fasteners designed for quick and secure installation of shading fabrics onto screen profiles and wire structures. Their easy handling and reliable grip make them ideal for use in greenhouse shading systems.

Thanks to their corrosion-resistant and durable stainless steel design, these clips also prove useful beyond greenhouses—for example, for attaching materials to thin metal sheets or wires. Supplied in a packaging unit of 1,000 pieces.
