Description

- **Product:** Coconut rope – strong
- **Packaging unit:** 1 bale (40 kg)
- **Diameter:** approx. 8-10 mm
- **Length:** approx. 40-50 m/kg
- **Application area:** Securing trees and plants, root ball wrapping, decoration
- **Material:** Natural fiber
- **Function:** Eco-friendly and secure fastening
- **Advantages:** Biodegradable, highly durable

The **Coconut rope – strong (40 kg bale)** is a robust and eco-friendly solution for securing trees and plants. It is ideal for wrapping root balls, stabilizing young plants, or serving as a decorative binding material.

Made from high-quality natural fiber, the coconut rope offers excellent durability and strength. With a diameter of approx. **8-10 mm** and a length of approx. **40-50 m/kg**, it is especially resilient and long-lasting.

Thanks to its biodegradable nature, coconut rope is a sustainable alternative to synthetic binding materials. It supports the natural growth of plants without harming the environment.

An essential tool for gardeners, nurseries, and landscape designers who value secure and environmentally responsible fastening solutions.
