Description

- **Application:** Guides wire ropes in greenhouse systems
- **Material:** Pulley made of durable plastic - housing made of metal for high stability
- **Mounting:** Fixed and swiveling eyelet for flexible installation
- **Highlight:** Internal wire routing through the housing design
- **Packaging Unit:** 25 pieces

The **Block Pulley 50** offers a reliable solution for guiding wire ropes in greenhouse systems. It features both a fixed and a swiveling mounting eyelet to allow for flexible installation.

The pulley is made from tough plastic, while the housing is constructed from metal to ensure maximum durability and stability. Its specialized housing guides the wire safely and helps reduce unnecessary friction.

This pulley is highly versatile and suitable for various greenhouse technology applications.
