## Description

- **Application area:** Fastening greenhouse films to the supporting structure
- **Material:** Aluminum - lightweight, strong, and corrosion-resistant
- **Length:** 6,000 mm
- **Installation:** Screw-mounted via integrated mounting tab
- **Function:** Secures the film using two-part PVC locking strips
- **Special features:**
  - Two-part design simplifies installation and removal
  - Protects both film and profile during handling
  - Ideal for permanent and secure film fastening

The **aluminum film locking profile** with a length of 6,000 mm is a practical solution for securely fastening greenhouse films. It is screwed directly onto the greenhouse structure using the integrated mounting tab. The inserted film is secured with two-part PVC locking strips, creating a durable connection without damage. The well-thought-out design not only simplifies installation but also protects the materials during later removal—ideal for professional film greenhouses.
