Description

- **Application:** Wire fastening on 50×50 mm square tubes
- **Material:** UV-stabilised plastic
- **Installation:** Tool-free hooking and knotting
- **Features:** Adjustable, easy handling

The **Plastic Wire Holder 50.50** is designed for fastening polyester wire to 50×50 mm square tubes in shading systems. The UV-stabilised plastic is corrosion-free and ideal for long-term use in greenhouse environments.

Installation is completely **tool-free**: the polyester wire is placed into the prepared slot and secured with a simple knot. On the opposite side, the wire can be tensioned and hooked in the same way, ensuring a fast and clean installation.

Even after the wire has been inserted, the holder remains **adjustable**, allowing flexible positioning at any time – perfect for adaptable shading and climate systems.

With its easy handling, robust design and long service life, the Plastic Wire Holder 50.50 is a reliable solution for professional greenhouse installations.
