Description

- **Product:** Spring steel rods 6 mm galvanized
- **Length:** 325 cm
- **Packaging unit:** 50 pieces
- **Application area:** Construction of lightweight tunnels for weather and frost protection
- **Material:** Galvanized spring steel
- **Function:** Stable support for films and fleeces
- **Advantages:** Durable, resistant to weather conditions

The **Spring steel rods 6 mm galvanized - 325 cm** are a reliable solution for constructing lightweight tunnels for weather and frost protection. Thanks to their robust design, they provide stable support for films and fleeces.

The galvanized coating makes the spring steel rods especially durable and resistant to weather conditions. They are ideal for professional use in nurseries and agricultural operations.

With a packaging unit of **50 pieces**, they are perfect for larger projects and offer dependable support for protecting plants.
