## Description

This plastic pulley has a split bracket for attachment to already strained cables. In this case the pulley functions as a guiding roller. Being turned around the pulley can be suspended with the included S-hook. In this position the pulley can divert cables.

Made of high impact resistant plastic  
Diameter 40 mm  
Can be used for cables with a diameter up to 7 mm  
With an axel made of stainless steel  
Comes with a S-hook for suspending
