Description

- **Application:** Shading systems for greenhouses
- **Material:** White, transparent-diffuse fabric
- **Width:** 525 cm
- **Shading Rate:** Approx. 65%
- **Light Transmission:** Approx. 35%
- **Energy Savings:** Approx. 47%
- **UV Stability:** 600 kLy

Clima+ 65 - 525 cm is a premium-grade interior shading fabric for greenhouse installations. Its diffuse, transparent white weave delivers a refined balance between solar shading and light penetration, supporting healthy plant development in a controlled climate.

The UV-stabilized finish guarantees longevity in high-radiation environments, while the open optical structure ensures uniform light dispersion across cultivation zones. A strong choice for growers seeking consistent indoor lighting and temperature moderation without compromising airflow.

Note: Price applies to material only. Fabrication services (e.g. cutting, hemming) may incur additional costs.

Product information

Energy Saving:	47 %
Shading:	65 %
Direct Light transmission:	35 %
Flame retardant (DIN 4102 B1):	No
UV Stabilization:	600 kLy
Weight (+/- 10%):	93 g/m ²
