## Description

- **Application:** Closed knitted shading fabric for greenhouse screens
- **Material:** Transparent knitted yarns with reflective aluminum bands
- **Width:** 325 cm
- **Feature:** Designed for light reflection and improved ventilation

**EcoScreen ES15 - 325 cm** is a lightweight knitted climate screen developed for greenhouses that require energy-efficient shading and temperature control. The embedded aluminum threads reflect incoming sunlight to reduce internal heat buildup, while the acrylic yarn structure supports humidity balance.

Despite its closed nature, the ES15 allows gentle air movement for passive ventilation, making it ideal for both overlay and suspended installations.

**Note:** Price refers to base material only. Cutting, sewing, or other fabrication services may result in additional charges.
