## Description

- **Application:** Manual operation of shading and ventilation systems
- **Material:** Durable steel construction for high stability and longevity
- **Gear ratio:** 1:8 - enables precise control with minimal effort
- **Installation:** Directly mountable to TGU telescopic shafts or drive shafts

The **Manual Drive R9E-TGU for Small Applications** offers a dependable solution for manually controlling greenhouse shading and ventilation systems. Its robust steel design ensures high stability and long service life.

With a gear ratio of 1:8, it provides smooth and efficient operation. The drive connects directly to TGU telescopic or standard shafts for straightforward setup.
