Description

- **Application:** Connection of drive cable to 19 mm aluminum tubes in shading systems
- **Material:** High-grade plastic for long-term use
- **Function:** Slip coupling with sliding clamp mechanism to protect drive cables
- **Feature:** Especially suitable for greenhouses with temperature-induced material expansion
- **Packaging Unit:** 100 pcs

Slip joint type 1 – incl. 1 spring + cover for 19 mm aluminum tube provides a gentle yet secure connection between the drive cable and aluminum tubes in greenhouse shading systems. The integrated slip coupling with sliding clamp technology ensures flexible tension while minimizing cable stress.

This mechanism is especially beneficial in greenhouses exposed to temperature-related material expansion, such as aluminum gutters.

The slip joint is supplied with a spring and cover and is designed for easy installation.
