Description

- **Application:** Vertical blackout and heat-reflecting screen for greenhouse side walls
- **Material:** Laminated woven fabric made of Aluminum/PE
- **Width:** 190 cm
- **Shading:** 100%
- **Light transmission:** 0%
- **Energy saving:** 80%

Gev-Al/Wit is a laminated, heat-reflecting vertical blackout screen for greenhouse side walls. With 100% shading and 0% direct light transmission, it provides complete darkening where required.

The aluminum/PE construction ensures long-term durability, effective heat reflection and stable performance. With an energy-saving value of 80%, the screen also supports efficient climate management inside the greenhouse.

Note: The price refers to material only; additional confectioning costs may apply.
