Description

- **Application:** Protecting polyester wires and shade fabrics in laid-out shading systems
- **Installation:** Clips onto the upper edge of the screen profile
- **Function:** Centers the wire and prevents friction against the profile edge
- **Material:** Plastic
- **Packaging Unit:** 5,000 pieces
- **Features:**
    - Laterally adjustable – adapts to fabric guidance flexibly
    - Extends the lifespan of both wire and fabric

The **Plastic Upper Wire Guide** is a must-have component for laid-out greenhouse shading systems. It is clipped onto the upper edge of the screen profile to protect both the polyester wire and the attached fabric from abrasion. Its slideable design enables flexible positioning for consistent fabric alignment—ideal for durable and low-maintenance installations.
