Description

- **Application:** Fan speed controller for greenhouse ventilation
- **Control:** Simultaneous regulation of up to 3 fans
- **Compatibility:** Interface for climate computer for easy configuration
- **Features:** Robust and long-lasting construction
- **Value:** Cost-effective solution for fan management

Controller for up to 3 fans - R3V-6A enables precise regulation of air circulation in greenhouses. With an integrated interface for climate computers, fan speed adjustments can be made conveniently and automatically.

Specifically designed for greenhouse use, this device offers a durable and reliable way to manage multiple fans simultaneously.
