Description

- **Product:** Aquatex Groundcover 137
- **Width:** 335 cm
- **Application:** Weed control and ground coverage
- **Material:** High-quality woven PP fabric
- **Function:** Weed protection, easy cleaning
- **Advantages:** Durable, resilient, with placement grid markings

Aquatex Groundcover 137 is a robust ground cover that effectively protects crops from weed growth. Its smooth surface allows for easy cleaning and helps maintain a tidy planting area.

The woven PP fabric features a black base with an orange checkered pattern (25 cm × 25 cm) that serves as a placement guide. This version is more durable than the 100 g variant and is especially suitable for areas with high weed pressure or frequent traffic from light equipment such as wheelbarrows or irrigation carts.

With a width of **335 cm**, it is ideal for professional use in nurseries and landscaping projects.
