Description

- **Application:** White, transparent-diffuse shading fabric for interior greenhouse areas
- **Material:** UV-stabilized fabric with durability rated at 600 kLy
- **Shading Rate:** Approx. 65%
- **Light Transmission:** Approx. 35%
- **Energy Savings:** Approx. 25%
- **Weight:** 73 g/m² (±10%)
- **Features:** Open weave for airflow

Clima+ 65 O – 525 cm is a high-quality interior shading fabric engineered to create balanced light and climate conditions within greenhouses. It provides an effective blend of shading and light diffusion for optimal growing environments.

The open structure promotes excellent air circulation throughout the greenhouse, helping to stabilize temperature and humidity. UV stabilization up to 600 kLy and its lightweight nature make it both durable and easy to handle during installation.

Note: Price refers to base material only. Additional fabrication services (e.g. cutting, sewing) may incur extra charges.

Product information

Energy Saving:	25 %
Shading:	65 %
Direct Light transmission:	35 %
Flame retardant (DIN 4102 B1):	No
UV Stabilization:	600 kLy
Weight (+/- 10%):	73 g/m²
