Description

- **Application:** Connection between double-layer film and spiral hose
- **Material:** UV-stabilized plastic compound for long service life
- **Installation:** Secured to the spiral hose using a hose clamp
- **Feature:** Optimized air guidance for plastic greenhouses
- **Packaging Unit:** 900 pcs, bulk in pallet carton

Air transfer gasket is an essential component for greenhouses with double-layer film. It provides a reliable connection between the film and spiral hose, ensuring efficient air guidance for optimal insulation.

Made of a durable, UV-stabilized plastic compound, the gasket is highly resistant to environmental stress. Installation is quick and secure with a hose clamp, ensuring firm attachment to the spiral hose.

The bulk packaging unit of 900 pieces in a pallet carton is ideal for large-scale installations and professional use.
