Description

- **Application:** Closed knitted fabric for suspended and overlay greenhouse shading systems
- **Material:** White and transparent bands for high light permeability
- **Width:** 325 cm
- **Climate Benefit:** Acrylic fibers promote balanced humidity management

EcoScreen 60 FR white is a cost-effective knitted climate screen featuring translucent white yarns that gently diffuse sunlight without entirely blocking it—allowing plants to absorb the energy needed for photosynthesis.

Designed for use as both a shading and energy screen, it helps maintain stable interior conditions and improve crop performance. Ideal for growers looking for an affordable light-regulating solution with integrated climate support.

Note: Price reflects raw material only. Additional charges may apply for fabrication services.

Product information

Energy Saving:	47 %
Shading:	61 %
Direct Light transmission:	39 %
Flame retardant (DIN 4102 B1):	Yes
UV Stabilization:	5 years (climate: Central Europe)
Weight (+/- 10%):	90 g/m ²
