Description

- **Application area:** Return transport of shading fabric in horizontal shading systems
- **Installation:** Clamped onto 19 mm aluminum pipe - tool-free
- **Material:** Plastic - flexible, UV-resistant, and gentle on fabric
- **Connection:** Integrated pressure lock - prevents unintentional release
- **Special features:**
 - Ideal for lightweight aluminum pipe systems with wide truss spacing
 - Compatible with gliders, clamping parts, and 19 mm aluminum pipes
 - Easy handling during installation and maintenance

The **Cloth retainer 19 mm** is a functional component for securely returning shading fabric in horizontal shading systems. It is clamped tool-free onto the 19 mm aluminum pipe and reliably secured by an integrated pressure lock. The flexible plastic material protects the fabric from damage and ensures a durable, low-maintenance connection—ideal for modern greenhouse installations with lightweight pipe systems.
