## Description

- **Application:** Cost-efficient knitted climate screen for horizontal and suspended shading
- **Material:** Transparent knitted yarn with aluminum bands and acrylic fibers
- **Width:** 325 cm

**EcoScreen ES16 - 325 cm** is a functional greenhouse shading solution developed to balance light transmission and thermal reflection. Its combination of transparent synthetic yarns and aluminum elements ensures moderated heat levels inside the structure.

The use of acrylic fibers enhances the fabric's ability to support climate regulation by helping manage humidity and prevent condensation—especially relevant for temperature-sensitive crops and energy-conscious growers.

**Note:** Base price includes knitted fabric only. Tailored finishing available upon request.

## Product information

<b>Energy Saving:</b>	62 %
<b>Shading:</b>	65 %
<b>Direct Light transmission:</b>	35 %
<b>Flame retardant (DIN 4102 B1):</b>	No
<b>UV Stabilization:</b>	5 years (climate: Central Europe)
<b>Weight (+/- 10%):</b>	93 g/m <sup>2</sup>
