Description

- **Application area:** Suitable for shading systems with cable drive
- **Material:** Impact-resistant plastic for high stability and durability
- **Function:** Structured winding of the wire rope via pre-grooved plastic surface
- **Installation:** Two-part design allows retrofitting onto the drive shaft
- **Capacity:** Holds up to 5.70 m of cable
- **Suitable for:** Wire ropes up to 3 mm in diameter and drive shafts of 34 mm

The **Cable drum 1" - Type I** enables structured winding of the wire rope thanks to the pre-grooved plastic surface, ensuring smooth cable movement within the shading system.

Its two-part design allows for retrofitting onto the drive shaft. The two halves are securely fastened using the included axle screws, ensuring a firm hold on the shaft.

The impact-resistant plastic protects the wire rope and extends its service life, making the cable drum ideal for long-term use.
