Description

- **Application:** Chain-driven worm gear for ventilation and energy screens without power supply
- **Ideal for:** Elevated side vents unreachable with standard cranks
- **Use cases:** Small to medium installations in greenhouses, barns, and halls
- **Gear ratio:** 1:40 (110 Nm torque)
- **Chain length:** Usable length 2 m
- **Chain wheel:** Made of impact-resistant plastic
- **Installation:** Direct-mount solution with worm gear, plastic chain wheel, and chain guide
- **Features:**
    - Low-maintenance and climate-resistant
    - Excellent value for money
    - Simple connection to drive shaft

The **worm drive** is a practical, direct-mount solution for ventilation and energy screen systems without electricity. It is ideal for elevated side vents and compact installations in greenhouses and agricultural buildings.

Its impact-resistant plastic components and robust design ensure long-term reliability, while the 1:40 gear ratio provides powerful torque with minimal effort.
