Description

- **Application area:** Fastening polyester wires to lattice girders in shading systems
- **Material:** High-quality stainless steel for maximum durability
- **Special feature:** Side-mounted, available in various heights

The **Inox truss clamps 30 mm** are specifically designed for the **stable fastening** of polyester wires to lattice girders in shading systems. Thanks to their high-quality **stainless steel** construction, they offer excellent resistance and long service life.

These truss clamps are **side-mounted** and available in various heights, allowing flexible adaptation to different requirements.
