Description

- **Product:** Standard Irrigation Mat 300
- **Width:** 11.5 cm
- **Length:** 50 m
- **Application:** Water storage for crops on greenhouse tables
- **Material:** High-capillary fleece
- **Function:** Even water supply with high storage capacity
- **Advantages:** Reduces evaporation, prevents drought stress, durable

The **Standard Irrigation Mat 300** is a reliable solution for supplying water to plants on greenhouse tables. It stores water and releases it gradually to the crops over an extended period, ensuring a consistent water supply.

With a storage capacity of approx. 3 litres per square metre, it ensures efficient water use and reduces evaporation losses. The mat is durable and easy to install, making it ideal for professional use in nurseries and horticultural businesses.

With a width of **11.5 cm** and a length of **50 m**, it offers flexible application options.
