Description

- **Application area:** Mounting the rack below the fabric in shading systems with push rod drive
- **Material:** Galvanized steel for high corrosion resistance
- **Size:** 95 mm
- **Spacing:** 95 mm between screen profile and rack
- **Special features:** Robust and durable quality

The **Adaptor for rack 95 - welded and galvanized** enables stable mounting of the rack below the fabric in shading systems with push rod drive. Thanks to its galvanized steel construction, it offers high corrosion resistance and long service life.

The driver ensures a spacing of 95 mm between the screen profile and the rack, guaranteeing optimal system performance.
