Description

- **Application:** Fabric guiding in suspended or overlaid shading systems
- **Material:** Galvanized steel for enhanced corrosion protection
- **Design:** Tapered ends for seamless connection
- **Wall Thickness:** 0.8 mm
- **Length:** 6500 mm
- **Packaging Unit:** Bundle of 169 tubes

The **19/0.8 mm Tapered Steel Tube, Sendzimir-Galvanized** is a go-to solution for guiding shade fabrics in overhead or surface-mounted systems inside greenhouses. It also serves as a guiding profile for curtain systems with descending fabric.

The tapered ends enable quick and stable connections between tubes. Thanks to its galvanized surface, this steel tube resists corrosion and delivers long-lasting reliability. Supplied in a bundle containing 169 pieces.
