Description

- **Application:** Universal fastening of fabric in greenhouses
- **Material:** Steel with plastic coating for added protection
- **Diameter:** 1.7–2.5 mm
- **Length:** 500 m
- **Special feature:** Protects textiles and extends their durability

The **black-coated wire rope 1x7, 1.7–2.5 mm** can be tensioned horizontally or vertically and serves as a universal solution for securing fabrics. The plastic coating protects the textiles from abrasion, helping them last longer.

Additionally, the wire rope is positioned above the tensioned drive cable in laid shading systems.
