Description

- **Application:** Manual operation of shading and ventilation systems
- **Material:** Durable steel construction for high stability and longevity
- **Gear ratio:** 1:40 - enables precise control with minimal effort
- **Installation:** Directly mountable to TGU telescopic shafts or drive shafts

The **Manual Drive R41-1P/TGU for Small Applications** is a reliable solution for manually operating greenhouse shading and ventilation systems. Its sturdy steel build ensures long-term durability and stable performance.

With a gear ratio of 1:40, it allows precise control with minimal force. The unit mounts directly to TGU telescopic or standard drive shafts for easy installation.
