Description

- **Application area:** Sealing of glazing and twin-wall sheets in greenhouse structures
- **Material:** High-quality rubber for flexible and long-lasting use
- **Function:** Provides reliable sealing and protects glazing putty and silicone from UV radiation
- **Color:** Black
- **Packaging unit:** Roll with 50 m length

The **Rubber clamping profile 27 mm - roll = 50 m** is specifically designed for securing glazing in greenhouse structures. It ensures a reliable seal and protects glazing putty and silicone from UV exposure, providing long-term sealing performance.

Thanks to its high-quality rubber material, the clamping profile offers excellent flexibility and durability, making it ideal for long-term use.
