## Description

- **Application:** Economical closed knitted fabric for horizontal and suspended shading systems
- **Material:** Acrylic yarns with transparent film bands
- **Width:** 60 cm
- **Flame Retardancy:** Classified DIN 4102 B1

**EcoScreen 10 FR - 60 cm** is a compact climate screen made from closed knitted fabric. It's ideal for localized shading setups where space or mechanical movement is limited—while still delivering the typical ES10 functionality.

By remaining deployed during cool days, it helps minimize heating losses. The integrated acrylic fibers contribute to consistent humidity balance within the greenhouse. Its flame-retardant classification makes it suitable for areas with increased safety requirements.

**Note:** Price applies to raw knitted fabric only. Customization options such as hemming or tape are available upon request.

## Product information

<b>Energy Saving:</b>	48 %
<b>Shading:</b>	21 %
<b>Direct Light transmission:</b>	79 %
<b>Flame retardant (DIN 4102 B1):</b>	Yes
<b>UV Stabilization:</b>	5 years (climate: Central Europe)
<b>Weight (+/- 10%):</b>	83 g/m <sup>2</sup>
