Description

- **Application area:** Connection between drive wire rope and 19 mm pipe
- **Material:** Aluminum for high stability and corrosion resistance
- **Clamping part:** 30 mm for secure fastening
- **Installation:** Pre-assembled with M6 × 35 screw for easy installation

The **Aluminum saddle clamp 19 mm + clamping part 30 mm** is a proven solution for securely connecting drive wire ropes to 19 mm pipes in shading and ventilation systems. Its high-quality aluminum construction ensures excellent stability and corrosion resistance.

The pre-assembled clamping part, measuring 30 mm, provides reliable fastening, while the included M6 × 35 screw enables quick and easy installation—making the saddle clamp especially practical for professional applications.

This saddle clamp is ideal for use in greenhouses and other demanding environments where a stable and long-lasting connection is essential.
